

How many seeds per packet?

10 seeds - very big, difficult-to-find seeds or you don't need many in a garden ie lima, broadbean

15-20 - bigger seeds - beans, pumpkin and other cucurbits - cucumber, zucchini, watermelon

25-30 – peas

30-40 - medium sized seeds - bok choy, beetroot, broccoli, cabbage, capsicum, chilli, eggplant, silverbeet, spinach

40-50 - smaller seeds or ones you have a lot of ie amaranth, basil, coriander, lettuce, mustard, onion, rocket, tomato

60-80 - very small seeds or crops that you need a lot of in the garden, or whose seeds are not always so viable ie carrots, cereals, poppy, radish, daikon

100 - seeds which need to be grown in large quantities for correct genetic diversity ie corn, sunflower
